

1

Save the V4 software on your computer by pressing the button "Software update"

## 2 Save the file on a micro USB stick.

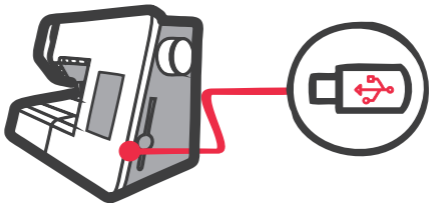

You must not unzip the ".zip file".

**3**

**Turn on your Veritas Carmen and insert the micro USB stick into the micro USB port.**

If you do not have a micro USB stick, please use an adapter cable.

# 4 Select the settings menu and press

## "Update Software".

The process takes about 8 minutes.  
Do not switch off the sewing machine  
during the upload.
