

## VERITAS Amelia - 90 stitch programs extend the sewing horizon

With its selection of 90 stitch programs, the VERITAS Amelia sets almost no limits to creativity.

It has practical elastic and overlock stitches, 7 different types of buttonholes and numerous quilt and decorative stitches. Each program is pre-programmed with the optimum stitch width and length and the automatic thread tensioner also ensures clean stitches. The automatic needle threader and the fully automatic thread cutter at the touch of a button as well as the sewing button ensure relaxed sewing and top results.

### Simple and professional

90 stitch programs, including quilting, decorative, and overlock stitches, as well as automatic darning make professional work as simple as it is varied. The automatic thread tension always adapts precisely and therefore creates straight seams without accidental ruffling.

### Set up from head to toe for creativity

No matter whether decorations for sets or table cloths, smart hems of dresses or unique creations - there is nothing, which is not possible with the VERITAS Amelia. The glare-free LED light allows a perfect view of the work at all times. This allows you to be in control even at a late hour, and quickly reach your perfect result.

### Does the work, provides the pleasure

From the ingenious darning function, which repairs holes in the blink of an eye, to the automatic thread cutter, the VERITAS Amelia manages many work steps almost on her own, and saves precious time which you can devote to your passion for sewing. The threading assistant is especially handy, meaning that you don't need to spend a long time threading, and can get started straight away.

### The matching hole for every button

The variety of buttons in the world is almost infinite. So why always sew the same buttonhole? Because individuality begins in the details, the Veritas Amelia boasts seven different buttonhole styles. This sewing machine rewards experimentation – after the first attempts, you will quickly master the automatic buttonhole function, and sew buttonholes like a pro.

### Snap On function

Changing the presser foot is done on the VERITAS Amelia in a matter of seconds. All supplied feet, used for decorative work, can be fitted with one movement, without any additional tools. Only a small lever must be pushed upwards, and the new foot is in use. The sewing fun can begin!

## AMELIA

### Flying high

When military nurse Amelia Earhart was allowed to fly on board an aeroplane for the first time in 1920, she only wanted one thing: to become a pilot herself. After countless jobs, she could afford the long-awaited pilot's license. This unprecedented fighter for emancipation soon set a world altitude record and was the first woman to make a solo crossing of the Atlantic Ocean. With the VERITAS Amelia we remember this ambitious and fearless woman.
