

## VERITAS Bessie - Over 190 stitch programs with alphabet and numbers

The large display of the VERITAS Bessie conveniently shows all stitch settings.

The stitch length can be set from 0 - 4.5 mm and the stitch width from 0 - 7 mm and then saved using the memory function. Comfortable sewing, even without foot control, is easy with the VERITAS Bessie. With the help of the start/stop button the machine can also be operated manually. The automatic needle threader and the fully automatic thread cutter for upper and lower thread at the touch of a button as well as the sewing button ensure top results.

### Regulated speed

For projects that should be carried out with great care, it is particularly useful to sew slowly and precisely. Conversely, high sewing speed is suitable for long and heavy panels. That's why the sewing speed with the VERITAS Bessie can be regulated easily by hand, so sewing is slow, medium or fast.

### Save your own patterns

The large LCD multi-function display makes it particularly easy to set individual stitch patterns. Existing patterns can be set and adjusted together with the stitch length from 0 - 4.5 mm and the stitch width from 0 - 7 mm, and then saved as an individual custom pattern using the memory function. When sewing next, the stored stitch is easy to retrieve.

### Accurate and precise

Accuracy and precision are in paramount with all VERITAS models. Whether buttonholes or different stitch lengths, thanks to the numerous settings and automatic functions, even the most difficult tasks succeed in the blink of an eye. With the glare-free LED light nothing remains hidden from view. Precise work becomes child's play.

### That certain something

Unique home-made pieces can be personalised wonderfully with the VERITAS Bessie. For example, extravagant seams for all fabrics can be found in the stitch pattern selection. There is also the possibility using alphabet and numbers to create especially clever details.

### Wide range of accessories

For even more comfort, the VERITAS Bessie is equipped with numerous accessories. This includes various utensils, such as the edge guide, edge overlock foot, the satin stitch foot, and also so that every creative project can be started straight away, a comprehensive thread set.

### A true pioneer

Bessie Coleman was already driven at an early age by the desire to be a pilot - at a time when it was unthinkable for women of colour. Through courage, perseverance and an iron will, she succeeded in becoming the first woman ever to gain an inter-national pilot's licence, and is thus still a towering role model for women all over the world. We want to pay tribute to this performance with our VERITAS Bessie.
