

VERITAS®

VERITAS Janis - Reliable, no frills

The VERITAS Janis is a reliable and easy to use sewing machine.

Simple sewing operations can be easily managed with the 9 stitch programs. Buttonholes are neatly sewn in four quick steps and zippers can also be easily sewn in. In addition, the thread cutter and the reverse sewing button simplify the sewing access.

The most important things on board

First attempts at sewing and simple repairs can be handled easily with 9 stitch programmes. With the straight, zigzag and blind stitch, curtains and trousers can be shortened, tears darned and patches sewn on. With the 4-stage buttonhole programme, accurate buttonholes are sewn, which round off every successful sewing result.

Small and handy

Despite her small format, the VERITAS Janis impresses right across the board. Additional space for sewing is created by removing the free arm door, and she is easy to transport thanks to the fold-out carrying handle. This means that the sewing machine can be stored quickly and safely until the next job.

Easy to use

The VERITAS Janis offers three default stitch lengths for the straight stitch, which can be easily selected via the rotary dial for strong wear seams. There are three different lengths of zigzag stitch at your disposal for the serging of cut edges. For stronger seams, the stitch is tightened at the end of the seam by pressing the reverse sewing button.

Specifications

Janis

A legend of rock music

Janis Joplin was the queen of blues rock, who stood on the stage of the Woodstock Festival with her band and inspired countless people to date. In her simple and direct manner, she succeeded in inspiring millions. And also in terms of fashion, she developed her own style, which perfectly reflected her personality and was copied by millions: Lightly playful and yet robust - just like our VERITAS Janis.
