

VERITAS Simone - Strong partner for sewing projects

The VERITAS Simone can sew up to 1200 stitches per minute.

It can be used with 2, 3 or 4 threads. The tension of the upper threads can be adjusted individually for all 4 threads, resulting in an optimum seam pattern. The stitch lengths and widths can be continuously adjusted with the clearly arranged adjustment dials, even during the sewing process. With 12 stitch programs, Simone offers a comprehensive stitch package that makes all overlock sewing jobs possible. Thanks to the colored markings, threading the hook and needle is also easy.

Rolled hem made easy

Experts know: The rolled hem is one of the supreme disciplines in tailoring. An airy summer skirt, a fine decorative cushion or a sweet little children's dress are only really rounded off by a softly undulating final seam. With VERITAS Simone, it can now be done without any trial and error or changing of feet. Simply fold over the slider for the chainstitch, and a rolled hem is created that is as even as it is decorative.

Desired effects and puffy sleeves are no problem

With the VERITAS Simone, the differential feed can be finely adjusted to prevent skewed seams or unwanted puckering even with stretch fabrics. For particularly unusual effects, the puckering can again be used selectively: Simply adjust the differential feed, and imaginative puffed sleeves are no longer a problem.

Comfort at all levels

The tension of the upper threads can be adjusted individually for all 4 threads so that an optimum seam pattern is created. Stitch length and width can also be infinitely adjusted via equally clear adjustment dials, even during the sewing process. This allows great creative freedom comfortably in the blink of an eye.

Specifications

12 stitch programs such as rolled hem, narrow hem, 4-, 3- and 2-thread overlock stitch	Pre-threaded
75 - 1200 stitches per minute with electronic speed control	Stitch length adjustable from 0 - 4,5 mm
Adjustable cutting width	Stitch width adjustable from 4 - 7 mm
Thread cutter	Differential feed dogs
Dust bin	Adjustable thread tension
4-3-2 thread overlock machine	Adjustable presser foot pressure
Clear color-coded thread guide	Solid construction
Bobbin threader	Suitable for light and strong fabrics

Quality needles	Dust bin
Brush	Two thread converter
Stitch finger	

A milestone in the women's movement

Simone de Beauvoir was a French writer, philosopher and feminist. Under the influence of her partner Jean-Paul Sartre, she developed into the most important existentialist writer in France. Her breakthrough came with her book „The Second Sex.“ The work is considered the foundation of the second wave of feminism and for women's and gender studies.
